

# TAILINGS AND MINE WASTE 2019

November 17-20, 2019 • Vancouver, British Columbia

## SPONSORSHIP AND EXHIBITOR OPPORTUNITIES

### Geotechnical, environmental and regulatory issues related to tailings and mine waste management

#### Raise your profile and build partnerships at the Tailings and Mine Waste 2019 Conference!

Mine waste managers, engineers involved with tailings management and reclamation, regulators and researchers will convene to present ideas, learn of new developments and technologies, make professional contacts and discuss issues related to the impact of mine wastes on the environment.

Delegates will have the opportunity to learn from over 140 speakers presenting paper and poster sessions as well as a variety of short courses. In 2015, the last time the conference was held in Vancouver, over 400 delegates attended from over 50 countries around the world.

As a sponsor you will have an opportunity to:

- Create awareness of your brand among an international audience;
- Build and enhance relationships with key industry decision makers; and
- Learn about the latest technology and industry trends.

#### Conference Themes:

1. **Management/Governance** in relation to tailings management best practices in conceptualization, design, operation, closure and post-closure
2. **Contributions to Sustainable Development** across the same life-cycle stages noted for Management/Governance

**Join us to be part of the action!**
